29 July 1952

MEMORANDUM FOR:

FROM

:

SUBJECT

: Summer Area Program, Appraisal of the Value of

Colonel Baird has asked that he be given, as soon after the close of the Summer Area programs as is conveniently possible, a statement concerning the results of the various sections. He feels that it would be important to have the point of view of the students as well as that of the substantive offices, as to the benefits which each individual has received, the importance of the lectures to the work of the office, and to the growth of the individual, and how well the program fitted itself to the function of the offices.

The purpose of these appraisals will be to guide him in his thinking about repeating them at a later date. It is his desire, of course, that they be objective and that wherever criticism is valid, it be included in the report.

In the files on the Summer Area program are lists of nominations by the various officers who are most concerned. [redacted] the registrar, should have the attendance lists and therefore be able to provide the names of those students who are most regular in their attendance.
